***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the lug engagement means and accessories must be shown or the features canceled from claims 4 and 8. No new matter should be entered.

***Claim Rejections - 35 USC § 112***

2. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 3, the term "at the transition" should be "at a transition." Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-2,4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Teicher et al. (US 5,451,213). Teicher et al. discloses a device comprising a needle encapsulating portion, a syringe barrel encapsulating portion and a retention portion. The retention means is 13,20 as shown in Figures 4-6.

Art Unit: 3728

5. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by FR2650511 by Patrick. Patrick discloses a device comprising a needle-encapsulating portion, a syringe barrel encapsulating portion and a retention portion. The retention means 2 is shown in the drawings.

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Teicher et al. in view of Faulseit (US 3,342,319). Teicher et al. does not show a morse taper as recited in claim

3. But Faulseit teaches a syringe holder with a taper in the needle-encapsulating portion. It would have been obvious in view of Faulseit to provide a transition area similar to the shape of the syringe to better accommodate the article.

8. Claims 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Teicher in view of Mueller (US 4,954,239). Teicher does not disclose a kit for holding the device and accessories. But Mueller teaches a kit, for example, a container 14 with other accessories therein in combination with a syringe. It would have been obvious in view of Mueller to store the syringe in a container with the necessary accessories.

9. Claims 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Patrick in view of Mueller (US 4,954,239). Patrick does not disclose a kit for holding the device and accessories. But Mueller teaches a kit, for example, a container 14 with other accessories therein

in combination with a syringe. It would have been obvious in view of Mueller to store the syringe in a container with the necessary accessories.

### ***Conclusion***

10. Telephone inquiries regarding the status of applications or other general questions, by persons entitled to the information, should be directed to the group clerical personnel and not to the examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners, M.P.E.P. 203.08. The **Group clerical receptionist number is (703) 308-1148** or the **Tech Center 3700 Customer Service Center number is (703) 306-5648**.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Donna Monroe at (703) 308-2209.

For applicant's convenience, the formal FAX number is (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify Examiner Luong of Art Unit 3728 at the top of your cover sheet of any correspondence submitted.

Inquiries concerning the merits of the examination should be directed to Shian Luong whose telephone number is (703) 308-2039. The examiner can normally be reached on M-H from 7:00am to 4:00pm EST.
